This paper examines some of the determining factors for market transparency and efficiency in the light of the changes taking place on European securities markets, particularly the surge in competition between traditional exchanges, the emergence of alternative trading systems that rival with them for business, and the internationalisation of orders under way at investment firms.

Desde Detroit hasta Lahore, la mayoría de las ciudades del mundo enfrentan problemas

financieros, y aun así se espera que lleven a cabo sus funciones cada vez más complejas. Finanzas municipales - Manual para los gobiernos locales toma partido. Se pone del lado de los alcaldes y de los responsables de los asuntos municipales. Son escasas las publicaciones sobre este tema dirigidas tan directa y pragmáticamente a las autoridades decisorias y al personal financiero a nivel local. El contenido y los mensajes principales procuran responder a las inquietudes y a las cuestiones que enfrentan diariamente las ciudades y los municipios en la administración de sus finanzas. Finanzas municipales - Manual para los gobiernos locales asume una posición. En ocho capítulos, en esta obra se pasa revista a las lecciones aprendidas sobre relaciones intergubernamentales; finanzas de las áreas metropolitanas; gestión financiera, de los ingresos, de los gastos y de los activos públicos; financiamiento externo, y medición del desempeño de las finanzas municipales. Abarca temas tales como la descentralización, la transparencia y la rendición de cuentas, y aborda temas menos explorados como la gestión de activos, la capacidad crediticia, la respuesta frente a crisis financieras y los mecanismos de presentación de informes a los diversos niveles de gobierno y a la ciudadanía. Finanzas municipales - Manual para los gobiernos

locales hace un llamado a la acción. No solo aporta conocimientos de avanzada en muchas cuestiones técnicas, sino que también guía a los gobiernos locales en el laberinto de los instrumentos existentes. En particular, la autoevaluación de las finanzas municipales que se propone en el capítulo 8 debería ayudar a los municipios a evaluar su propia situación y a avanzar en la senda de las reformas.

Transparency and integrity are key factors in consolidating democratic governance and deepening the modernization of the state. The Inter-American Development Bank (IDB) has been supporting country efforts to achieve open government, providing technical support and knowledge on transparency in the LAC region. With the support of the Norwegian government, the IDB created the Anticorruption Activities Trust Fund (AAF), aimed at strengthening the institutional capacity of the Bank's borrowing countries in their efforts to prevent and control corruption. After four years in operation, the fund has gained recognition, both inside and outside the Bank, as a source of innovation and best practices in terms of access to information and targeted transparency. This publication compiles some of the experiences and lessons learned from five different countries (Argentina, Brazil, Colombia, Ecuador, and Guatemala), with direct support from the AAF.

The Politics of Public Accountability Springer

Globalisation has the potential to raise living standards for citizens around the world, as well as bearing the risk of excluding people from those benefits. Ensuring that globalisation contributes to a more equitable and sustainable form of economic growth requires the participation of citizens in monitoring how the global economy is changing and how it impacts the life of people.

Los grandes problemas de México. Políticas públicas. T-XIII Inter-American Development Bank Alberto Fujimori ascended to the presidency of Peru in 1990, boldly promising to remake the country. Ten years later, he hastily sent his resignation from exile in Japan, leaving behind a trail of lies, deceit, and corruption. While piecing together the shards of Fujimori's presidency, prosecutors uncovered a vast criminal conspiracy fueled by political ambition and personal greed. The Fujimori regime managed to maintain a facade of democracy while systematically eviscerating democratic institutions and the rule of law through legal subterfuge, intimidation, and outright bribery. The architect of this strategy was Fujimori's notorious intelligence advisor, Vladimiro Montesinos. With great skill, Fujimori and Montesinos created the appearance of a democratic public sphere but ensured it would work only to suit their personal motives. The press was allowed to operate, but information exchange was under strict control. The more government officials tampered with the free flow of ideas, the more they inadvertently exposed the ills they were trying to cover up. And that proved to be their downfall. Merging penetrating analysis and a journalist's flair for narrative, Catherine Conaghan reveals the thin line between democracy and dictatorship, and shows how public institutions can both empower dictators and bring them down.

Graciela Rincón Martínez est connue pour être la poétesse de la nature - dix de ses livres ont les arbres comme sujet poétique central - Transparence marque un réel tournant dans son écriture. Ici ce n'est plus le règne végétal qui domine mais le devenir de l'homo sapiens qui l'emporte. La tonalité est donnée d'entrée de jeu, avec la dédicace : Al amanecer del hombre nuevo / À l'aube du nouvel homme « La poésie de Graciela Rincón Martínez ouvre le grand théâtre des incertitudes de notre condition humaine, parcourant le labyrinthe de notre existence afin de trouver peut-être la

clef de son énigme. Cette poésie existe comme un besoin aigu de donner du sens à notre passage, de combler la main vide de l'univers. » (Grégory Huck, préface)

Spanish Abstract: Los escándalos empresariales y las crisis financieras han sido producto de la crisis de valores. En este contexto, se describe el papel que desempeña el contador en la construcción y mantenimiento de la confianza, la cual, se ha visto afectada por las acciones poco éticas desarrolladas en el mundo de los negocios. Por consiguiente, la imagen del contador da cuenta de los juicios sobre las profesiones que están sustentados sobre la base de los rumores, en vez de las responsabilidades que recaen sobre estos. Recalcando la importancia que juega la ética en la creación de confianza y la reputación del profesional.

This book uses the reflection of academics specialized in the urban area of Latin America, Europe and the United States, to initiate a comparative debate of the different dynamics in which Urbicidio expresses itself. The field or focal point of analysis that this publication approaches is the city, but under a new critical perspective of inverse methodology to that has been traditional used. It is about understanding the structural causes of self-destruction to finally thinking better and then going from pessimism to optimism. It is a deep look at the city from an unconventional entrance, because it is about knowing and analyzing what the city loses by the action deployed by own urbanites, both in the field of its production and in the field of its consumption. This suppose that the city does not have an ascending linear sequential evolution in its development but neither in each of its parts in the improvement process, showing the face that commonly not seen but others live. The category used for this purpose is that of Urbicidio or the death of the city, which contributes theoretically and methodologically to the knowledge of the city, as well as to the design of urban policies that neutralize it. In addition, it is worth mentioning that the book has an inclusive view of the authors. For this reason, gender parity, territorial representation and the presence of age groups have been sought.

Ningún otro lema domina hoy el discurso público tanto como la transparencia. Según Han, quien la refiere solamente a la corrupción y a la libertad de información, desconoce su envergadura. Esta se manifiesta cuando ha desaparecido la confianza y la sociedad apuesta por la vigilancia y el control. Se trata de una coacción sistémica, de un imperativo económico, no moral o biopolítico. Las cosas se hacen transparentes cuando se expresan en la dimensión del precio y se despojan de su singularidad. La sociedad de la transparencia es un infierno de lo igual. Google y las redes sociales, que se presentan como espacios de libertad, se han convertido en un gran panóptico, el centro penitenciario imaginado por Bentham en el siglo XVIII, donde el vigilante puede observar ocultamente a todos los prisioneros. El cliente transparente es el nuevo morador de este panóptico digital, donde no existe ninguna comunidad sino acumulaciones de Egos incapaces de una acción común, política, de un nosotros. Los consumidores ya no constituyen ningún fuera que cuestionara el interior sistémico. La vigilancia no se realiza como ataque a la libertad. Más bien, cada uno se entrega voluntariamente, desnudándose y exponiéndose, a la mirada panóptica. El morador del panóptico digital es víctima y actor a la vez.

This volume discusses the importance of adopting entrepreneurial and innovation practices in the public sector, as mechanisms for detecting, dealing with and including citizens' social needs, with a reflection on positive determination of their quality of life. It focuses on critical reflection and rethinking the articulation between the dimensions of transformation - entrepreneurship and innovation - of New Public Management (NPM). In this way the book contributes to deepening knowledge about the implications of this change in the organizational paradigm of the public sector for citizens' quality of life, which is treated multi-dimensionally here, including citizens' well-being, purchasing power, happiness, trust, safety, experience and satisfaction. The volume constitutes a reference guide for decision makers, managers and policy makers engaged in the public sector who want to differentiate their performance by fostering entrepreneurial and innovative practices in the scope of public administration that can enhance citizens' quality of life. This volume is also a reference guide for scholars, policy makers and practitioners interested on public innovation.
